

Post-Paid and Pre-Paid pricing

Post-Paid pricing

Post-Paid model settled from below (post-service payment). The billing period is the calendar month. The value of the invoice is calculated in accordance with the threshold settlement the more you send the lower unit price you receive. Invoices are issued at the beginning of the month (first working day) for the past month, with a payment deadline of up to 10 days.

Pre-Paid pricing

Pre-Paid model settled in advance (payment before the service). The funds on the account are perpetual, the top-up value determines the unit rates. Higher top-up means lower the unit price. The invoice is issued on the first working day after topping up the account. Topping up of the account takes place automatically (eg PayU) or manually (payment on account, pro-forma).
